Principals Report

This term was a very exciting Term with the preliminary work on our new library and the creation of a performance area. The Merit Excursion to the Bowling Alley was a great incentive for a number of students to pick up their performance. Approximately 8 students were not invited to go on the excursion. Hopefully they will qualify for the next Merit Excursion. Most of the 8 will be

allowed to attend the next school excursion provided they have not been sent to another class on two occasions for poor behaviour in class.

The Science room has been set up as a laboratory and this coming Wednesday outside study areas will be established with Flora identified and labelled for units of work. The River will also be evaluated for studies in terms of particular activities and to ensure safe practises.

Swimming School will start next Term. This is an extremely valuable program that is known to save lives. Drowning is a major cause of deaths among primary aged students.

K 1 Classroom

Hi Everyone,

Just like to wish you a safe and happy holiday. Daylight saving starts this weekend as well. In class we have looked at time – putting clocks forward and back and discussing what time it will be. This has all been linked into our

mini theme on Spring.

The children will be using the microscopes this week to look more closely at parts of plants. They have also finished their unit on weather with Ms Adsett including presenting a weather report.

Enjoy the holidays – remember we all start back on Monday the 19th October.
